DE MORSE'S D'MORSE'S INVICORATING CORDIAL

TOR GENITAL BEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in tiper years, renders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and mover before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Senaual Excesses or evil practices. It has been vaid by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has cured,

This, however, is not the fact.
DR. MORSE'S INVIGORATING CORDIAL has cured and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclu-

mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital. Writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS
have not, in a single instance that has been authenticated, given their sauction to any other preparation for the above complaints. It has, in many violent and desperate cases, effected radical cures, after patients had been abundoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION
Of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in

of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarsaparillas,) without deriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since, although it is not three weeks. I am satisfied that the half a dozen bottles I took will cure me."

three weeks. I am satisfied that the half a dozen bottles I took will core me."

Another says: "I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that; but I found no relief until I procured some of your Cordial. I must say it completely cured ms."

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

GAUTION.—Ask for Dr. Morse's Ordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., and try only this.

It is put up in pint bottles, with the words Dr. MORSE'S INVIGORATING OORDIAL blown on the glass. Price \$3 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per dozen.

Young Men especially, who have become the victims of Solitary Ficz, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senstes with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when saleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE. TAKE PARTICULAR NOTICE

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that sceret and solitary habit, which ruin both body and mind, unfitting them for either business or society. These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Lose of Muscular Power, Palpitation of the Heart, Dyspensia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Lose of Memory, Confusion of Heas, Depression of Spirits, Svil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepals, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its 'complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emicated and premature decline, to sound and pristine health. Oh, now harpy have hundreds of misguided youths been made. how happy have hundreds of misguided youths been made who have been suddenly restored to health from the devas-tations of those terrific maladies which result from indiscre-

tion! Such persons, before contemplating MARRIAGE, tion! Such persons, before contemplating

MARRIAGE,
should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pil-grimage; the prospect hearly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes highted with our own. Let no false delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaracity that the afflicted will find a skilful and honorable physician.

TARE NOTICE.

guaracty that the ameted will ind a skillfil and honorable physician.

1t is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofession al for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fail into the hano's of those improdent, boasting impostors—individuals desth'ute of knowledge, name, and character-pediars, shoemakers, mechanics, &c., advertising themselves as physicians; ign orant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can care you. To those unacquainted with his reputation the deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full vigor restored.

AVER'S CHERRY PECTORAL.

TO CURE A COLD, WITH HEADACHE AND SORE. NESS OF THE BODY, take the CHERRY PETTORAL OR going to bed, and wrap up warm, to sweat during the night.

FOR A COLD AND COUGHL, take it morning, noon, and evening, according to directions on the bottle, and the difficulty will soon be removed. None will long suffer from this trouble when they find it can be so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night, will find, by taking the CHERRY PETTORAL on going to bed, they may be sure of sound, unbroken sleep, and consequently refreshing rest. Great relief from suffering, and an ultimate cure, is afforded to thousands who are thus afflicted, by this invaluable remedy.

From its agreeable effect in these cases, many find themselves unwilling to forego its use when the necessity for it has ceased.

From two eminent Physicians in FAYESTEVILLE, TENN.: April 16, 1851. FATESTEVILLE, TENN. April 10, 100 CHERRY PROTOBAL an extensive trial in our practice, and find it to surpass every other remedy we have for curing affections of the respiratory organs.

DRS. DIEMER & HAMPTON.

DRS. DIEMER & HAMPTON.

TO SINGERS AND PUBLIC SPEAKERS this remely is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

ASTHMA is generally much relieved, and often wholly cured, by Cherry Pectoral; but there are some cases so obstinate as to yield entirely to no medicine. CHERRY PECTORAL will cure them, if they can be cured.

BRONCHITIS, or irritation of the throat and upper portion of the lungs, may be cured by taking CHERRY PECTORAL in small and frequent doses. The uncomfortable oppression is soon relieved.

Rev. Doctor LANSING, of BROOKLYN, NEW YORK, states: "I have seen the CHERRY PECTORAL cure such cases of Asthma and Bronchitis as lead me to believe it can rarely fail to cure those diseases."

FOR CROUP.—Give an emetic of antimony, to be followed

by large and frequent doses of the CHERRY PECTORAL, until it subdues the disease. If taken in season, it will not fail to ure. WHOOPING-COUGH may be broken up and soon cured by the use of CHERRY PECTORAL.

THE INFILUENZA is speedily removed by this remedy. Numerous instances have been noticed where whole families were protected from any serious consequences, while their neighbors, without the CHERRY PECTORAL, were suffering from the disease.

SALEM, OHIO, 11th June, 1851.

Doctor J. C. AYER: I write to inform you of the truly remarkable effects of your CHERRY PECTORAL in this pince, and in my own family. One of my daughters was completely cured in three days of a dreadful Whooptno-Count by taking it. Dr. Meaus, one of our very best physicians, freely states that he considers it the best remedy we have for pulmonary diseases, and that he has cured more cases of Chour with it than any other medicine he ever administered. Our elergyman of the Baptist church says that during the run of INFLUENZA bere this season, he has seen cures from your medicine he could scarcely have believed without seeing.

Yours, respectfully, SALEM, OHIO, 11th June, 1851.

J. D. SINCLAIR, Deputy Postmaster. From the distinguished Professor of Chemistry and Maleria
Medica, Boudoin College.

I have found the Chemat Profonal, as its ingredients show a powerful remedy for colds, and coughs, and pulmonary diseases.

"It gives me pleasure to certify the value and efficacy of Ayer's Cherry Peterral, which I consider peculiarly adapted to cure diseases of the Throat and Lungs." Cures of severe diseases upon the Lungs have been effected by OHERRY PECTORA, in such extreme cases as war-rant the belief that a remedy has at length been found that can be depended on to cure the Coughs, Colds, and Consump-tion which earry from our midst thousands every year. It is indeed a medicine to which the afflicted can look with con-fidence for relief, and they should not fail to avail them-

A GENTLEMAN Called on me on Saturday last, and stated that he really believed he owed his present existence, under Providence, to the use of Hampton's Vegetable Tincture. He was so reduced and debilitated that he was unable to walk a square at a time for many months, and gradually grew weaker, but was induced to try this medicine, and is now a hale, active man. FOR SCOTT, BOYS, HURRAH!

BY ONE OF THE BOYS

The old men all remember— As 't were but yesteriny— When Britain sought, on Freedom's soil, "Again to plant her sway: Again to plant her sway:
The old men all remember
Who hurled her back again—
'T was Winfield Scott, at Chippewa,
'T was Scott, at Lundy's Lane!
So fling for Scott the banner out,
And sing for Scott hurrah;
With him we can the locos rout,
And win for Chippewa!

The young men all remember—
Twas not five years ago—
Who led our hosts to victory,
And conquered Mexico:
The young men all remember
How Churubusco's field,
And Vera Cruz, and Contreras,
Were made by Scott to yield!
So fling for Scott the banner out,
And sing for Scott hurrah;
With him we can the locos rout,
And win for Chippewa.

The old men and the young men—
With Scott to lead the fight—
From hill and dale, from shore and wave,
Will rally and unite:
The old men and the young men—
With Scott to lead them on— With Scott to lead them on—
Will make the hero of two wars
Their Chief at Washington!
So fling for Scott the banner out,
And sive for Scott hurrah;
With him we can the locos rout,
And win for Chippewa.

Editors' Correspondence.

[From our Baltimore Correspondent.]

Baltimore, August 6-10 a. m. There is no news of a general character affoat in our city at this time. Everybody except those like your correspondent, who belongs to the can't-get-away club, have long since left for one of the many delightful watering-places, or summer resorts, with which our "great country" is so bountifully supplied. We would like to be with them, but, like everybody else who is either directly or indirectly connected with the press,

we are tied to the oar. In a political sense everything in, around, and about us is in a great state of activity, and betokens that in the great Presidential sweepstakes every inch of ground will be warmly contested. This is what the indomitable Whigs of Baltimore desire: they would not give a groat to fight with tional and general in their character. a scared and lukewarm enemy, and for this reason they are endeavoring to urge the loco leaders to instill into the minds of their discordant ranks a little of the fire of the olden times; but it is no go-the workies are so chagrined at the defeat of their favorite veteran, General Cass, that they

won't come to terms. The industry of the leaders is worthy of a better cause: they go every night from ward to ward, and, after blowing their horn, endeavor to rally round the stand enough to make a respectable show, but the effort invariably ends in a failure. The only persons that can be found to listen are the "regulars," the bar-room sitters. who are always ready to take a drink with any one who comes along, be he Whig, Democrat, or Hottentot. Mark the prediction I made in my last letter-Baltimore will give a handsome majority for the hero of a hundred battles.

The loco leaders, in every effort at a speech, harp apon the position of Mr. Webster, and argue from it much in aid of their candidate. Poor fellows! like drowning men, they are catching at ERS to her, than they now are. a straw. What man living can suppose for a would consent to belie the whole course of his is where he always was-foremost in the Whig ranks, and, as heretofore, will give our "tall marine" a hearty support.

You have noticed the flattering articles upon our young and eloquent fellow-citizen, Henry Winter Davis, by the Northern press. They are well deserved, for a more eloquent and whole-souled Whig don't live. If opportunity should occur, he will give the Washingtonians a touch of his mettle before the close of the campaign.

Patriots Agree.

At the close of the revolutionory war. General Washington was urged to assume monarchial power. A majority of the people, and almost the entire army, would in all probability have acquiesced in such a movement. If ambition had peen his ruling motive, the temptation would have been too powerful to resist; but patriotism prevailed, and he rejected the proposition with scorn, and justly rebuked those who made it. For this and similar acts, the name of Washington will not only live imperishably in the hearts of his countrymen, but must increase its life until it becomes a household word, and a divinity enshrined in every home of freemen.

Soon after the capture of the city of Mexico, Gen. Scott was urged to usurp supreme power and become dictator of the empire of the Aztecs. Large sums of money were offered as inducements. and every assurance of success made for the attempt. We may well suppose that the temptation was powerful, but patriotism prevailed, and he answered: "Gentlemen, I came to take Mexico, not to let Mexico take me." Truly, as the good book says: "He that ruleth his spirit is better than he that taketh a city."

The same devil that once on a mountain made roffers of "all the kingdoms of the world and their glory," and offered crowns and sceptres and thrones to Washington, directed Scott up into the mountains of Mexico, showed all the wealth and glory of that nation, and offered him its treasures, power, and grandeur, if he would become its chief. He resisted the temptation, choosing rather to be an humble citizen of this nation than the emperor of another; and for this car-wheels. Considering the present high price exhibition of pure patriotism his nation will not be numindful. The present campaign will give and other inferior oils, this article (about 80 or be unmindful. The present campaign will give him such an earnest evidence of regard as only he | 90 cents per gallon) is well worth trying on the can secure.—Springfield (Ill.) Unionist.

TRASH !- Gen. Scott was in 1817 the military commander on this station, having his head-quarters in "Castle Clinton," now Castle Garden, and undertook to erect some structure for the despatch of business on the Battery. The citizens objected; a riot was threatened; and Gen. Scott very courteously suspended operations of his own accord, without an order or intimation from any superior, to await instructions from Washington. His views were not sustained, and there the matter ended. Could any party not in the last stages of desperation fancy that a vote against General Scott could be made out of this? And yet the Evening Post not only devotes column after column to its resurrection, but actually threatens to print a pamphlet about it! These folks are certainly moonstruck.

Noble Conduct of a Dog. The dog Rolla, belonging to Mr. Adams, of 60 Courtlandt street, on Sunday last performed one of those heroic deeds of humanity for which the Newfoundland breed is remarkable. An interesting little boy, about ten years old, while play-ing near the water at Hoboken, lost his balance and fell in. The tide sweeps along the shore there with great rapidity, and the little fellow in a few moments was carried apparently beyond the reach of human assistance. The lad it seems could swim a little best than the little feet was considered. could swim a little, but, just as his strength was giving way, the dog, at a short distance from the

spot, quick as thought, dashed through the crowd, leaped into the water, and in a minute more had the boy by the collar, secure between his teeth.

To bring him ashore, back to that particular place, however, was an impossibility, owing to the force of the current; so that the only hope was to make a point of land some distance ahead, between Jersev City and Hoboken, and for the (between Jersey City and Hoboken,) and for that quarter Rolla steered his course, amid the applause and excitement of the spectators. On went the noble animal, bravely buffeting the tide, and careless of the shouts of applause, all the while keeping the boy's face out of water. He reached the goal at length with his precious burden, safe and sound, but a little faint and frightened; and no sconer had he laid him down than the noble animal sank exhausted on the sand.

He was instantly surrounded by a numerous crowd of people, who had been eye-witnesses of the scene, vieing with each other in showing kindness to the heroic animal that had thus risked his own life to save that of a helpless human being. Some idea of the labor performed by the dog may be gathered from the fact that the entire distance he had to swim is said to be not less than two miles .- N. Y. Express.

Rivers and Harbors—The Locofoco Plat-form—Gen. Pierce.

There is one point of practical statesmanship pon which the platforms of the two parties are directly at issue. This point, presenting a question of vital importance to the West, is fully shown in the following extracts:

Resolved, That the constitution does not confer

upon the general government the power to commence and carry on a general system of internal improvements.—Locofoco Platform.

Sixth. The constitution vests in Congress the power to open and repair harbors, and remove obstructions from navigable rivers, whenever such improvements are necessary for the common de-fence, and for the protection and facility of commerce with foreign nations, or among the States, said improvements being, in every instance, na-

[Whig Platform. We believe that the candidates of the two parties are understood to be entirely committed in sentiment to the declaration of their several parties. That Gen. Scott is an internal improvement man, his party associations, as well as writings on several occasions, abundantly show: and it is a matter of public record that Gen. Pierce, dur-ing his whole political life, both spoke and voted against all appropriations for internal works of improvement. In fact, he never voted for an improvement bill of any sort during the whole time

he was in Congress. [From the London Times.]

Irishman in America Pays Tribute to England. When the Celt has crossed the Atlantic, he begins for the first time in his life to consume the manufactures of this country, and indirectly to contribute to its customs. We may possibly live to see the day when the chief product of Ireland will be cattle, and English and Scotch the majority of her population. The nine or ten millions of Irish, who by that time will have settled in the United States, cannot be less friendly to England, and will certainly be MUCH BETTER CUSTOM-

We have published this paragraph before, says moment that that great American statesman the Albany Journal, and we shall publish it again. We want the Irishmen who vote the cofoco ticket to read it: because in voting for long and consistent public life? No one but a Pierce they will vote for free trade, and free madman. No, no, gentlemen, "lay not that trade is what the London Times desires, because flattering unction to your souls." Mr. Webster under it American manufactures cannot flourish. Every Irishman who buys a jack-knife or a yard of British broadcloth contributes to the wealth of England. He puts money into the British treasury to sustain a standing army and a band of fat and lazy tithemen in Ireland. Can an Irishman be true to himself and thus help to support those who are trampling upon the neek of his native country ?- Grand River Eagle.

Superstition.

At the distance of about one half mile from the village of the Shakers in Canterbury, N. H., there is to be seen in a pasture, far from any public read, a marble stone, in height about 7 feet, which was brought from Lebanon, N. Y., the headquarters of the Shakers, about six years since, and erected by special command of Heaven as an object of worship by the holy annointed elders of this novel sect and their deluded followers. The devotion around this stone consists of kneeling, tumbling, wailing, singing, dancing, and other antics too numerous to mention, which so forcibly remind the spectator of the worship of the Hindoos, that he can hardly persuade him-

self that he is in America. Some four hundred Latter Day Saints were assembled on the 12th of July in Sunderland Hall. Newport, England, for a festival; suddenly, the ceiling of one half of the hall fell upon them with terrible crash, causing a frightful panic. Wonderful to relate, no one was injured! and the Saints at once attributed their escape to a mira-

A codfish, supposed to have wandered from the fishing grounds, was taken off Monhegan a day or two since; but, the letters V. R. being found upon him, it was clear that he belonged her Majesty Victoria, and accordingly his captors let him go. Their conscientious regard for the rights of others will be appreciated, when it is stated that there was no British cruiser in sight. The fish also bore a distinct impression of two large ears, supposed to be the private mark of the
